

Overview

This symposium will bring together key players from industry, academia and government to discuss a broad spectrum of GeoEnergy-related technologies and research, looking both at the current state of the art and future opportunities.

Registration

Registration is free of charge. Please register by 31 July via [Eventbrite](#).

Accommodation

Rooms available for booking at Courtyard by Marriott Edinburgh West at the special rate of £105 bed and breakfast single occupancy. Please use the link here: [GeoEnergy Rate](#) or contact the hotel on +44 131 5263210. Bookings at the special rate must be made by the 19 July 2019

Venue

The symposium will take place in the James Watt Centre, on the Heriot-Watt campus in Edinburgh, Scotland. The conference dinner in the evening on 2 September will take place in The Scottish Café & Restaurant (Scottish National Gallery), in the city centre of Edinburgh. The conference dinner is free of charge.

Programme

The symposium will run from 12pm on 2 September until 2pm on 3 September. Full details to be announced, sessions and keynotes as below:

- **Carbon Capture and Storage / Energy storage**
Keynote speaker: Owain Tucker, Shell
- **Oil and gas** Keynote speaker: Jo Bagguley, Oil and Gas Authority
- **Geothermal** Keynote speaker: Peter Ledingham, Geosciences Ltd
- **Machine learning** Keynote speaker: Saswata Hier-Majumder, Royal Holloway University

Organisers

Sabine den Hartog (HWU), Margaret Stewart (BGS), Andreas Busch (HWU) and David Schofield (BGS)

Funding

This event is funded via the Heriot-Watt University EPSRC Impact Acceleration Account (IAA) and British Geological Survey.
